

ACCOUNTS PAYABLE AUTOMATION

www.webiplex.com

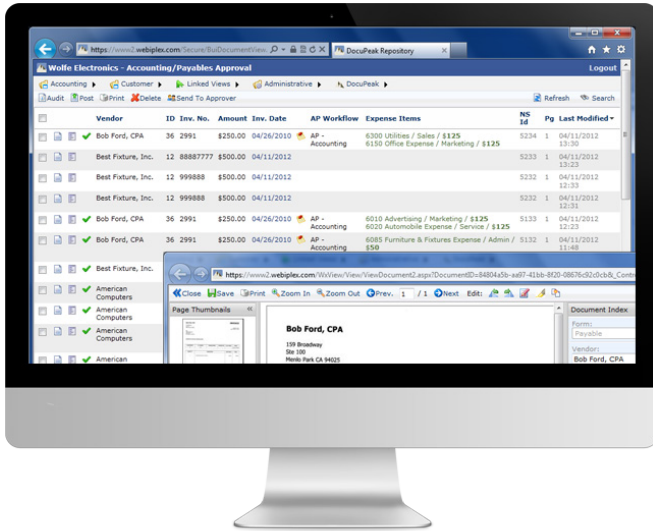

REACH PEAK PERFORMANCE AND PRODUCTIVITY WITHIN YOUR PAYABLES PROCESS

DocuPeak provides a robust document management solution when applied to even the most complex payables business process. This customizable, web-based solution can be configured for your specific business rules and role-based security.

Dramatically increase staff productivity and accountability within your accounting processes by creating a distributed workflow. Our advanced solution has the flexibility to capture both paper and electronic sources to drive even more value by simplifying your complex, manual driven payables steps.

DOCUPEAK TECHNOLOGY

DocuPeak drives efficiency by automating the manual, time-intensive steps within your accounts payable processes.

Integrated within your existing accounting system, DocuPeak is a powerful, secure, enterprise-grade document management solution with embedded Robotic Process Automation.

DocuPeak can automate the capture and collection of payables documents, and create or update related transactions to eliminate manual data entry.

By leveraging smart process apps within DocuPeak...KAYAK has greatly increased our efficiency of operations around the accounts payable process.

 Director, Financial System,
 KAYAK

BENEFITS

- **Leverage Smart Document Recognition (SDR)** to extract key data from documents, without templates, automating document indexing and transactional data entry.
- Add DocuPeak's Rules Engine to automatically route invoices through a predefined role-based review and approval process, including notifications and escalation procedures.
- Integrate all documents to the associated transaction within your existing accounting system for synchronization of key document data and instant retrieval.
- Create a secure, compliant document management environment, maintaining an audit trail of all document-based activity, including check-in, check-out and version control on changed documents.

TECHNOLOGY

- **Cloud:** Only a Web browser is required for administration, workflow dashboards, searching and viewing documents, including mobile devices.
- **Content Management:** Capture, process, archive and search for unstructured information and documents using a single unified platform.
- **Deep ERP Integration:** DocuPeak's Robotic Process Automation turns documents into transactional data automatically entered into your payables system.
- **Smart Document Recognition:** SDR is a next-generation capture technology for reading unstructured content (e.g. PDFs or scanned documents) to automatically generate data and perform data entry.
