BENEFITS

- **Leverage Smart Document Recognition (SDR)** to extract key data from documents, without templates, automating document indexing and transactional data entry.
- Add DocuPeak's **Rules Engine** to automatically route documents such as AP invoices through a predefined role based review and approval process, including notifications and escalation procedures.
- Integrate all documents to the associated transaction within Inacct for synchronization of key document data and instant retrieval.
- Create a secure, compliant document management environment, maintaining an audit trail of all document-based activity, including check-in, check-out and version control on changed documents.

TECHNOLOGY

- **Cloud:** Only a Web browser is required for administration, workflow dashboards, searching and viewing documents, including mobile devices.
- **Content Management:** Capture, process, archive and search for unstructured information and documents using a single unified platform.
- **Deep ERP Integration:** DocuPeak's Robotic Process Automation turns documents into transactional data automatically entered into Inacct.
- **Smart Document Recognition:** SDR is a next-generation capture technology for reading unstructured content (e.g. PDFs or scanned documents) to automatically generate data and perform data entry.
