

NATIVE NETSUITE INTEGRATION

www.webiplex.com

REACH PEAK PERFORMANCE WITH AUTOMATED DATA CAPTURE IN NETSUITE.

DocuPeak lets you extend your NetSuite solution to automate the critical front end pieces of your business processes. Automate document processing in AP, AR, fulfillment, or custom processes using artificial intelligence, business rules, and Robotic Process Automation (RPA).

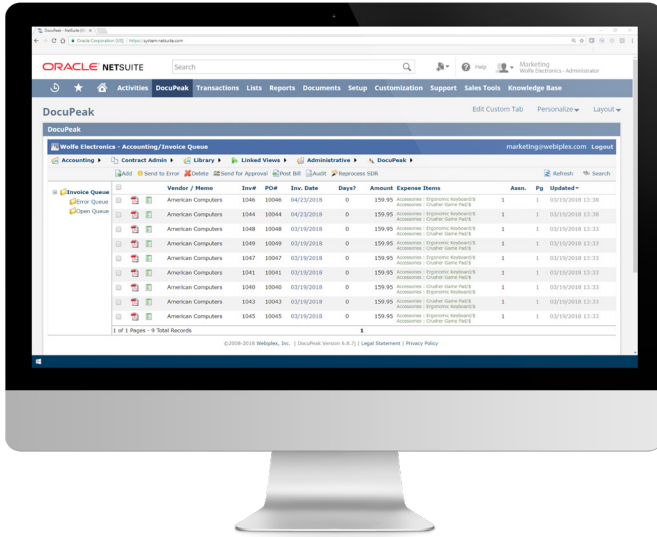

DocuPeak captures, processes and delivers to NetSuite the data that drives your business. And, we do it all while being fully integrated into your NetSuite system to help you reach peak performance.

Native SuiteApp

DOCUPEAK TECHNOLOGY

DocuPeak lets you extend your NetSuite solution to automate the critical front end pieces of your business processes.

Linked right to your NetSuite screens, DocuPeak is a powerful, secure, enterprise-grade document management solution with embedded Robotic Process Automation.

DocuPeak can automate the capture and collection of business documents, and create or update related transactions in NetSuite to eliminate data entry.

We have been using DocuPeak for over a year now and don't think of processing AP any other way.

The DocuPeak product is the only fit we could find for our complicated workflow and business needs...

- Five Star Reviews on SuiteApp.com

BENEFITS

- **Leverage Smart Document Recognition (SDR)** to extract key data from documents, without templates, automating document indexing and transactional data entry.
- Add DocuPeak's **Rules Engine** to automatically route documents such as AP invoices through a predefined role based review and approval process, including notifications and escalation procedures.
- Integrate all documents to the associated transaction within NetSuite for synchronization of key document data and instant retrieval.
- Create a secure, compliant document management environment, maintaining an audit trail of all document-based activity, including check-in, check-out and version control on changed documents.

TECHNOLOGY

- **Cloud:** Only a Web browser is required for administration, workflow dashboards, searching and viewing documents, including mobile devices.
- **Content Management:** Capture, process, archive and search for unstructured information and documents using a single unified platform.
- **Deep ERP Integration:** DocuPeak's Robotic Process Automation turns documents into transactional data automatically entered into NetSuite.
- **Smart Document Recognition:** SDR is a next-generation capture technology for reading unstructured content (e.g. PDFs or scanned documents) to automatically generate data and perform data entry.
